REM and its predecessors have been manufacturing a diverse range of Salon and Beauty furniture in the heart of Lancashire for over 100 years, and are extremely proud of their heritage. As the years rolled by, they found themselves developing the business into the Spa and Educational sectors - specialising in the completion of many prestigious spa's and training academies around the world. Its ethics as a British manufacturer are to employ a local labour force and to specify, where possible, UK componentry used in the

production of its goods. The aim is and has always been to design, create and manufacture high quality products to a professional industry throughout both the UK and export markets.

Every product made is quality assured, following the guidelines set out in British Standards. These standards comply with current regulations including CE, WRAS and RoHS certifications. All products are manufactured under stringent Health and Safety policies, protecting both employees and end users.

REM Design

Using our industry expertise and creative flair, REM Design can help you plan your dream salon, offering advice on products, colours and layout to help you get the most out of your budget.

Whether your salon is large or small, and regardless of budget, we are always excited by the opportunity to create an environment that is stimulating, motivating and inspiring for your staff and clients.

With an extensive range of furniture to choose from, you can personalise your salon by using our REM Design service. The REM Design experience begins with one of our knowledgeable team members arranging to meet with you to discuss your project. During this visit, accurate site measurements will be taken before

discussing your needs and preferences, and explaining the REM Design process - detailing styles, colours, quantities and potential layouts to help you realise your dream.

Once back in the office, our design team uses the measurements taken to create a set of bespoke scaled floor plans and 3D visuals to suit your brief. Our state-of-the-art, industry-leading CAD technology ensures that these visuals accurately represent both your salon and our design. We combine your vision with our expertise to deliver a range of inspired designs that will accurately represent your brand.

When your requirements include items not offered on our standard range, such as reception desks, seating or styling sections, we can design and build bespoke solutions to your exact specifications using REM Bespoke.

At REM, we understand that today’s working environments have to be responsive to the changing needs of the contemporary workplace. With this in mind, the designs we offer are inspirational and tailor-made to reflect the image and reputation of your salon.

This service is available for £225 + vat, which is refunded upon placement of an order totalling £3000 or more.

REM’s extensive showroom in their factory, Nelson Lancashire is open to visitors 5 days a week (Mon-Fri) Appointments can be made to view the showroom by calling REM Reception on 01282 619977. Please note that REM deal solely through their UK distributorship and so no direct purchases can be made during your visit. However, REM will help and advise you on choosing the nearest distributor to your business.
